

# CITIZEN PETITION TO **SAVE OUR STATE** PARKS

We, the undersigned, strongly oppose the closure of 70 California's state parks. This is the wrong move to take at a time when Californians most need access to affordable, available park destinations and will cause an economic ripple effect to the state's budget and struggling local economies. Shutting the doors to state parks is a step backward in California's history of protecting and creating its world-class state park system.

**By signing this petition, we urge the Legislature and Governor to keep our state parks open, protected and SAVE OUR STATE PARKS!**
